Austin, TX • 512.781.2507 • nwalker85@gmail.com • [linkedin.com/in/nwalker85](https://www.linkedin.com/in/nwalker85) • github.com/nwalker85 • nwalker.cc

Sales Engineering Leadership | Enterprise AI & Automation

Sales engineering and solution architecture leader with 15+ years building, scaling, and operating customer-facing technical organizations. Built and led SE practice from founding team of 3 to 10, then tapped to consolidate global sales engineering across four business units (~50 engineers) post-acquisition. \$50M+ influenced revenue across enterprise voice AI, automation, and agentic systems. Builder-operator who architects solutions at the whiteboard with C-suite stakeholders, builds evaluation frameworks that win deals, and develops the people and processes that scale a technical sales motion from founder-led to institutional.

CAREER HIGHLIGHTS & CORE COMPETENCIES

• \$50M+ enterprise revenue influenced — including \$17M (Visionworks), \$9M competitive displacement (SoCal Edison), \$6.25M innovation deal (Chipotle)	SE Leadership & Org Building Global presales practice design, hiring, onboarding, enablement, operating cadence, POC governance, Communities of Practice
• Global SE Org built from 3 → 10; post-acquisition, led consolidation of ~50-person global SE org across 4 business units (NA, EMEA, APAC, LATAM)	Enterprise GTM & Technical Win MEDDPICC, Challenger, Solution Selling; competitive differentiation; C-suite engagement; value engineering; QBRs
• 100+ Enterprise Deployments voice AI production systems across Genesys, NICE, Five9, custom SIP; contact center transformation at scale	Architecture & Platform Enterprise solution architecture (API, SaaS, PaaS); Cloud (AWS, Azure, GCP); Voice AI (LiveKit, Twilio, WebRTC, SIP)
• POC Governance Framework structured benchmarking methodology with near-perfect POC-to-deal conversion; evaluation frameworks adopted org-wide	AI/ML & Agents LangGraph/LangChain, RAG pipelines, evaluation frameworks (Langfuse, Judge LLM), multi-model routing, agent orchestration
• Golden Demo Library + automated provisioning → reusable technical assets reducing demo prep 40+ hrs/quarter across the SE org	Governance & Compliance SOC 2, HIPAA, FedRAMP, ISO27001 patterns; AI accountability frameworks; audit trail architecture

PROFESSIONAL EXPERIENCE

Quant | Vice President, Business Solutions (GTM / Customer Strategy)

Nov 2025 – Present • Remote

- Lead enterprise solution strategy and customer-facing technical alignment across Sales, Product, and Delivery for agentic AI platform serving global enterprise accounts
- Build executive-ready narratives mapping technical architecture to ROI, risk controls, and operational KPIs; drive structured discovery and deployment planning for complex engagements
- Design end-to-end telephony integration architecture connecting enterprise communication platforms to AI agent infrastructure for customer engagement solutions

SoundHound AI / Amelia (formerly IPsoft) | Senior Director, AI for Enterprise & Global Solution Architecture

Apr 2019 – Oct 2025 • Austin, TX / Remote

SE Organization & Leadership

- Primary DRI for building and scaling the SE practice: promoted through four roles from Implementation Engineer to Senior Director; grew founding team from 3 to 10
- Post-acquisition by SoundHound, led consolidation of global sales engineering across four business units (Enterprise, Restaurants, Automotive, Smart Answering) — ~50 engineers across NA, EMEA, APAC, and LATAM
- Designed the SE operating model: hiring profiles, onboarding playbooks, enablement curricula, certification paths, Communities of Practice, and regional operating cadence
- Built high-performing culture of servant leadership and technical excellence; known for championing teams and developing future leaders across all regions

Revenue & Technical Win

- Directly contributed to \$50M+ in closed enterprise AI deals — including \$17M (Visionworks), \$9M competitive displacement (SoCal Edison), and \$6.25M innovation deal (Chipotle)
- Built POC governance and evaluation framework with structured benchmarking methodology achieving near-perfect conversion; evaluation framework adopted org-wide as the standard for technical wins
- Led high-stakes customer escalations, navigated last-mile deployment blockers, and provided direct architectural guidance to customer engineering teams and C-suite stakeholders

Technical Assets & Enablement

- Authored and scaled Golden Demo Library with automated provisioning — reusable technical assets reducing demo prep 40+ hours per quarter across the SE organization

- Architected APEX Automation Center of Excellence: federated governance model, financial operating model, and phased roadmap — reusable framework enabling partners and internal teams to deliver at scale
- Led 100+ enterprise voice deployments across Genesys, NICE, Five9, and custom SIP integrations with direct architectural guidance to customer engineering teams

teleNetwork, Inc. | Operations Manager (Technical Operations / Automation Builder)

Feb 2007 – Sep 2018 • Austin, TX

- Led 45-person technical operations team within 200-person department; top-decile performance across quality, efficiency, and CSAT metrics
- Conceived and single-handedly engineered workflow automation platform replacing manual dispatch system; licensed to Frontier Communications generating ~\$2M ARR
- Built enterprise contact center operations platform integrating CRM, WFM, and omnichannel routing; overhauled key sales program increasing revenue 300% in six months

TECHNICAL DEPTH

Hands-on builder alongside the team — not just managing the motion, architecting the solutions.

- **AI/ML & Agents:** LangGraph/LangChain orchestration, RAG pipelines (pgvector, Neo4j, Redis), evaluation frameworks (Langfuse, Judge LLM), multi-model routing
- **Voice & Telephony:** LiveKit, Twilio, WebRTC, SIP, MRCP; ASR (Deepgram, Whisper), TTS (ElevenLabs); streaming audio pipelines
- **Platform & Cloud:** AWS, Azure, GCP; Docker, GitLab CI/CD, Traefik, Cloudflare; Grafana/Prometheus/Loki/Tempo
- **Governance:** SOC 2, HIPAA, FedRAMP, ISO27001 compliance patterns; AI accountability frameworks; audit trail architecture

BUILDER PORTFOLIO

Active open-source and production-grade agentic AI systems — github.com/nwalker85 • nwalker.cc

- **Agent Accountability Ledger:** cryptographic audit infrastructure for AI agent governance — hash-chained events, Merkle batching, public chain anchoring
- **Bifrost:** MCP-compatible tool gateway with credential management, rate limiting, and audit logging
- **Production voice AI systems:** LiveKit + LangGraph orchestration, real-time ASR/TTS pipelines, multi-agent coordination

THOUGHT LEADERSHIP

- **Conference Speaker:** Gartner, Forrester, NVIDIA GTC, HIMSS, CCW; MBA guest lectures
- **Published Frameworks:** APEX Automation CoE (federated governance), Architecting Certainty (high-stakes demo methodology)

EDUCATION & CERTIFICATIONS

A.A.S., Computer Networking — ITT Technical Institute (2006) • IBM Data Science Professional Certificate • CCNA (prev.)

Austin, TX (Central US) • Available for travel • Executive engagement • Hands-on technical leadership
