Sales Engineering Leadership | Enterprise AI & Automation

Sales engineering and solution architecture executive with 15+ years building, scaling, and operating customer-facing technical organizations. Built global SE practice from 3-person regional team to 50+ across NA, EMEA, APAC, and LATAM — with playbooks, enablement curricula, operating cadence, and Communities of Practice to sustain it. \$50M+ influenced revenue with a 38% POC-to-deal conversion rate across enterprise voice AI, automation, and agentic systems. Builder-operator who architects solutions at the whiteboard with C-suite stakeholders, builds evaluation frameworks that move win rates, and develops the people and processes that scale a technical sales motion from founder-led to institutional.

CAREER HIGHLIGHTS

- **\$50M+** enterprise revenue influenced — including \$17M (Visionworks), \$9M competitive displacement (SoCal Edison), \$6.25M innovation deal (Chipotle)
- **Global SE Org Built from Scratch** — 3 → 50+ across 4 regions; playbooks, certification paths, Communities of Practice
- **38% POC → Deal Conversion** — structured governance framework with evaluation methodology; improved overall sales win rate 114%
- **100+ Enterprise Deployments** — voice AI production systems across Genesys, NICE, Five9, custom SIP; contact center transformation
- **Golden Demo Library** — automated provisioning reducing demo prep 40+ hrs/quarter; reusable technical assets across the SE org
- **Servant Leadership Culture** — known for championing teams, developing future leaders, building high-accountability performance culture

CORE COMPETENCIES

- SE Leadership & Org Building
- Enterprise GTM & Technical Win
- Architecture & Platform
- Global presales practice design
- MEDDPICC, Challenger, Solution Selling
- Enterprise solution architecture (API, SaaS, PaaS)
- Hiring, onboarding, enablement curricula
- Competitive differentiation & positioning
- Cloud platforms (AWS, Azure, GCP, GovCloud)
- Operating cadence & portfolio health
- C-suite engagement & executive storytelling
- Contact center systems (Genesys, NICE, Five9)
- 30/60/90 programs & succession planning
- Value engineering & business case development
- Voice AI (LiveKit, Twilio, WebRTC, SIP, MRCP)

- POC governance & evaluation frameworks
- Complex RFP/RFI/RFQ management
- Observability (Grafana, Prometheus, Langfuse)
- Community of Practice facilitation
- QBR execution & expansion strategy
- AI/ML (LangGraph, RAG, evaluation pipelines)

PROFESSIONAL EXPERIENCE

Quant

Vice President, Business Solutions (GTM / Customer Strategy) Nov 2025 – Present • Remote

- Lead enterprise solution strategy and customer-facing technical alignment across Sales, Product, and Delivery for agentic AI platform serving global enterprise accounts
- Build executive-ready narratives mapping technical architecture to ROI, risk controls, and operational KPIs; drive structured discovery and deployment planning for complex engagements
- Design end-to-end telephony integration architecture connecting enterprise communication platforms to AI agent infrastructure for customer engagement solutions

SoundHound AI / Amelia (formerly IPsoft)

Senior Director, AI for Enterprise & Global Solution Architecture Apr 2019 – Oct 2025 • Austin, TX / Remote

SE Organization & Leadership

- Primary DRI for building and scaling the global sales engineering practice: promoted through four roles from Implementation Engineer to Senior Director; grew organization from 3-person regional team to unified global practice across NA, EMEA, APAC, and LATAM
- Designed the SE operating model: hiring profiles, onboarding playbooks, enablement curricula, certification paths, Communities of Practice, and regional operating cadence
- Built high-performing culture of servant leadership and technical excellence; known for championing teams and developing future leaders across all regions

Revenue & Technical Win

- Directly contributed to \$50M+ in closed enterprise AI deals — including \$17M (Visionworks), \$9M competitive displacement (SoCal Edison), and \$6.25M innovation deal (Chipotle)
- Built POC governance and evaluation framework achieving 38% POC-to-deal conversion with structured benchmarking methodology; improved overall sales win rate 114%
- Led high-stakes customer escalations, navigated last-mile deployment blockers, and provided direct architectural guidance to customer engineering teams and C-suite stakeholders

Technical Assets & Enablement

- Authored and scaled Golden Demo Library with automated provisioning — reusable technical assets reducing demo prep 40+ hours per quarter across the SE organization
- Architected APEX Automation Center of Excellence: federated governance model, financial operating model, and phased roadmap — reusable framework enabling partners and internal teams to deliver at scale
- Led 100+ enterprise voice deployments across Genesys, NICE, Five9, and custom SIP integrations with direct architectural guidance to customer engineering teams

teleNetwork, Inc.

Operations Manager (Technical Operations / Automation Builder) Feb 2007 – Sep 2018 • Austin, TX

- Led 40+ person technical operations team with top-decile performance across quality, efficiency, and CSAT metrics; managed complex multi-stakeholder technical projects across enterprise contact center operations
- Conceived and single-handedly engineered workflow automation platform (at age 22) replacing manual dispatch system; licensed to Frontier Communications generating ~\$2M ARR
- Built enterprise contact center operations platform integrating CRM, WFM, and omnichannel routing; overhauled key sales program increasing revenue 300% in six months

TECHNICAL DEPTH

Hands-on builder alongside the team — not just managing the motion, architecting the solutions.

- **AI/ML & Agents:** LangGraph/LangChain orchestration, RAG pipelines (pgvector, Neo4j, Redis), evaluation frameworks (Langfuse, Judge LLM), multi-model routing
- **Voice & Telephony:** LiveKit, Twilio, WebRTC, SIP, MRCP; ASR (Deepgram, Whisper), TTS (ElevenLabs); streaming audio pipelines
- **Platform & Cloud:** AWS, Azure, GCP; Docker, GitLab CI/CD, Traefik, Cloudflare; Grafana/Prometheus/Loki/Tempo
- **Governance:** SOC 2, HIPAA, FedRAMP, ISO27001 compliance patterns; AI accountability frameworks; audit trail architecture

THOUGHT LEADERSHIP

- **Conference Speaker:** Gartner, Forrester, NVIDIA GTC, HIMSS, CCW; MBA guest lectures
- **Published Frameworks:** APEX Automation CoE (federated governance), Domain Intelligence Schema (vendor-neutral agent modeling standard), Architecting Certainty (high-stakes demo methodology)
- **Builder Portfolio:** Runestack (AI accountability layer), Bifrost (MCP tool gateway), production voice AI systems — github.com/nwalker85

EDUCATION & CERTIFICATIONS

A.A.S., Computer Networking – ITT Technical Institute (2006) • IBM Data Science Professional Certificate • CCNA (prev.)

Austin, TX (Central US) • Available for travel • Executive engagement • Hands-on technical leadership
